Note: RT Series II cabinets 2013. Each RT Series II cabinet has a standard configuration part number and a separate part number for optional extras. Please refer to the new RT Series II catalogue 2013 for accessories.

RT Series cabinets pre-2013. Please be advised that the RT Series has been superseded, including the use of prefixes CC, C and CF. Pre-existing RT Series accessories are incompatible with the new RT Series II cabinets. However, industry standard 19" mounted accessories are still compatible. Call your Rack Technologies Sales Manager for any replacement parts, limited stock available.
